WHAT WE BELIEVE

ABOUT OUR VISION AND MISSION

VISION

Green Sky Sustainability is the leader in pioneering solutions accessible and feasible for organizations of all scales, tackling climate change with equitable, resilient, and low- carbon strategies.

MISSION

Green Sky Sustainability unleashes sustainable success with tailored strategies, maximizing economic gains while championing social responsibility, lowering environmental impact, and managing climate change.

IMPACTS OF CLIMATE CHANGE ON YOUR BUSINESS

01 Operational Risks:

The growing frequency and severity of extreme weather events, such as floods, heavy rain, wildfires, and heatwaves are increasing the vulnerability of assets and business continuity. These events have the potential to disrupt operations and supply chains. Hence, it is critical to regularly assess vulnerabilities and risks to ensure the success of the business.

02 Financial Risks:

Climate-related risks, such as physical damage to assets, changes in market demand, and the devaluation of carbon-intensive assets, can pose financial risks. Investors are also increasingly considering climate-related factors in their decision-making processes.

03 Reputation and Brand Image:

Organizations are under growing scrutiny for their environmental practices. Failure to address climate-related issues can damage a company's reputation and brand image, leading to consumer distrust and potential loss of market share.

And many more

MANAGEMENT SYSTEM

WHAT ARE MANAGEMENT SYSTEMS?

Management Systems are proven, structured, systematic and cost-effective tools designed to facilitate the achievement of operational and financial objectives.

WHY MANAGEMENT SYSTEMS?

They enhance business performance and organizational internal capability to combat physical and financial risks—making organizations better, more efficient, effective, resilient, and sustainable. Think of The Six Million Dollar Man—improved, stronger, faster.

INTRODUCING YOUR BLUEPRINT TO ACHIEVE A SUSTAINABLE FUTURE WITH CARMS® !!

CLIMATE ACTION & RESILIENCE MANAGEMENT SYSTEM®

Strategic program that serves as a blueprint for achieving climate action by providing a tangible and actionable plan.

01

Unique Solution

The game-changer that's reshaping climate action and resilience management.

02

Systematic approach

Personalized 'Plan-Do-Check-Act' guidebook

Helps to navigate risks and unleash opportunities

03

Based on International Standards

Conforms to International Standards- ISO14001:2015, ISO14090:2019

04

Strategic Pathway

Serves as your tailored roadmap to decisive climate action and steadfast resilience.

Solution - CARMS[®]

OUR APPROACH TO CLIMATE CHANGE

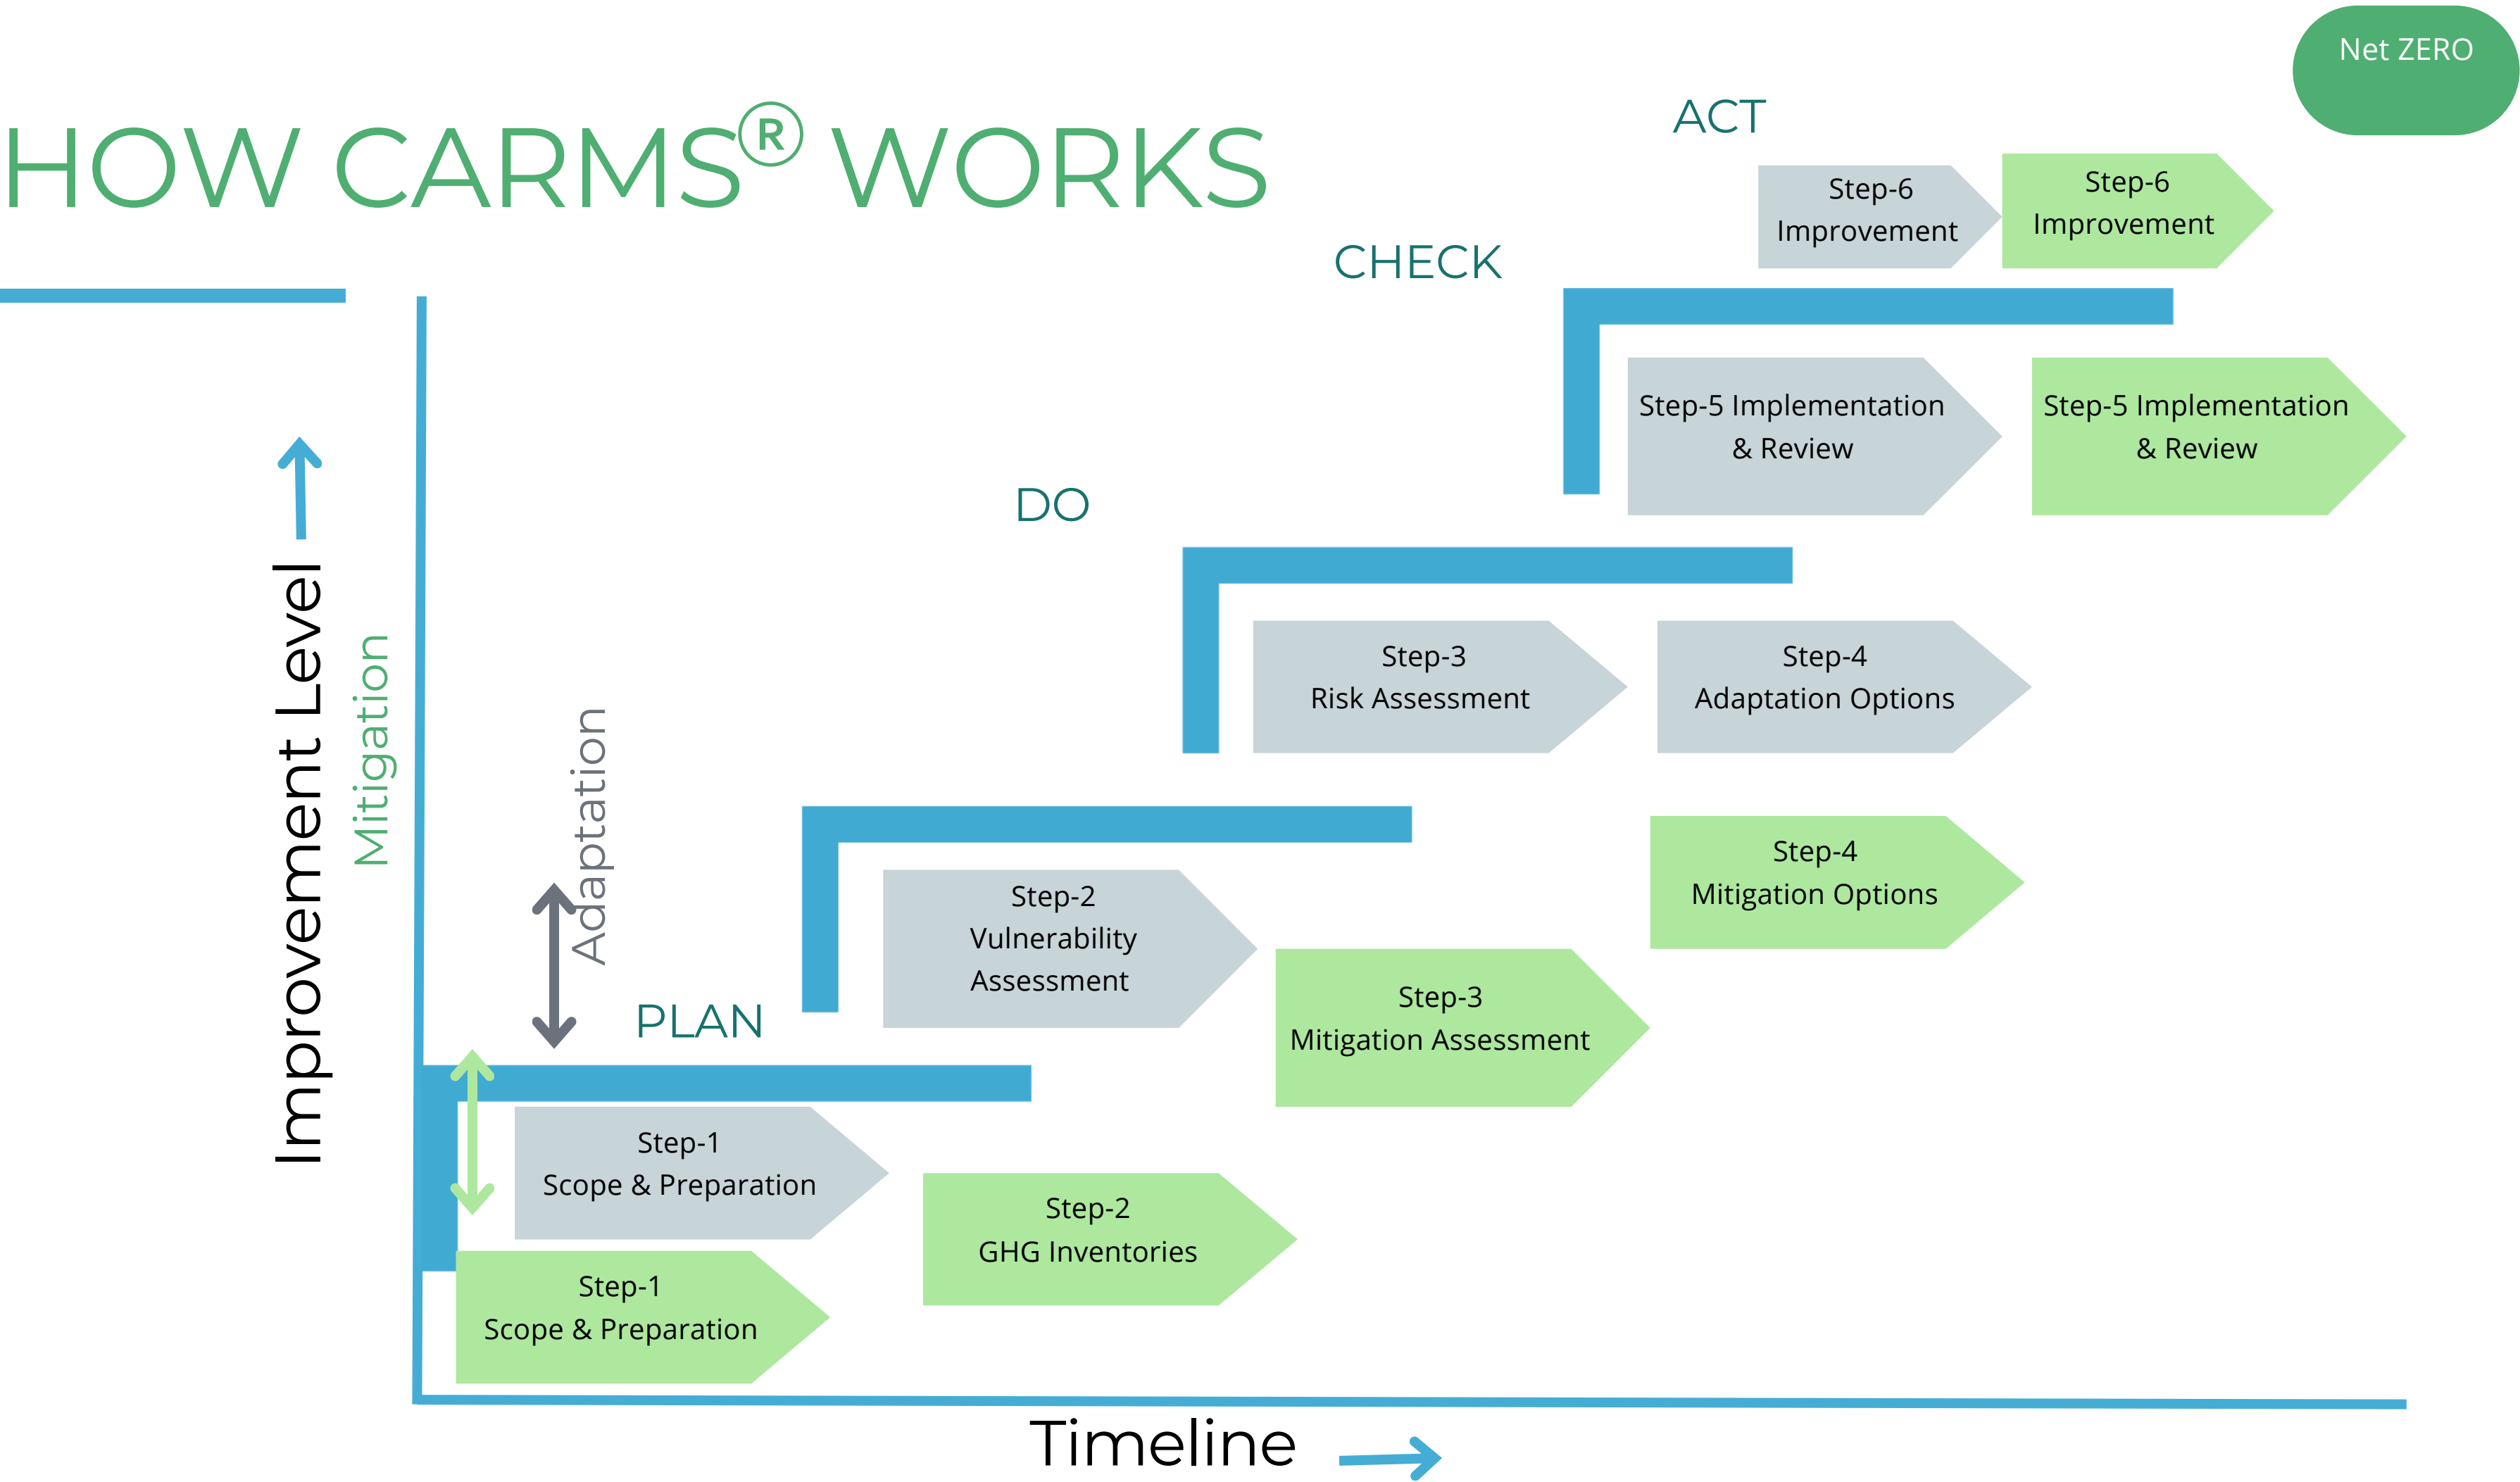

FOLLOWS the PDCA CYCLE (LIKE ISO STANDARDS)

- The ISO standards focus on the "WHAT **are the requirements**", CARMS[®] goes a step further by outlining the "HOW **to meet those requirements**".
- CARMS[®] is the road map for the systematic approach of organizations.
- Provides a comprehensive process to establish climate change mitigation and adaptation strategies in your company.

*Conforms to International Standards- ISO14001:2015,
ISO14090:2019*

HOW CARMS[®] WORKS

BENEFITS

Your Strategic Pathway to Climate Resilience and Sustainability

Emission Reduction & Financial Incentives:

CARMS[®], the powerful tool in your arsenal, helps you identify and act on emission reduction opportunities. It offers top-tier greenhouse gas reporting and positions you to benefit from financial incentives.

Climate Adaptation Excellence:

Our partnership enhances your understanding of how climate impacts your organization and what you can do, including emergency protocols and provides hands-on training for eco-friendly practices to navigate climate impacts.

Evolving in the Green Economy:

Green Sky, together with CARMS[®], uncovers pathways to a low-carbon economy. We provide full support for your sustainability journey, with top-notch training.

Sustainability Assurance:

CARMS[®], in collaboration with Green Sky, delivers comprehensive sustainability audits, management system support, and expert tools, guaranteeing your sustainable and resilient success.

WHY CARMS[®]?

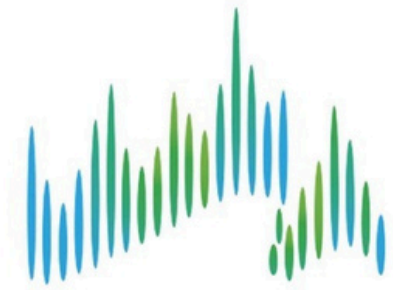

CARMS[®] manages risks –

- Physical climate impacts. Extreme weather events, such as flood, heavy rain, wildfire and heat waves, these events may disrupt your operations or supply chain.
- Regulatory challenges (the Carbon Tax)
- Market changes

CARMS[®] captures opportunities –

- Achieve GHG reduction compliance obligation
- Access to Voluntary Carbon Market (VCM) for credits
- Saving money,
- Reducing pollution
- Enhancing reputation, and
- Building staff morale
